PREFACE.

——

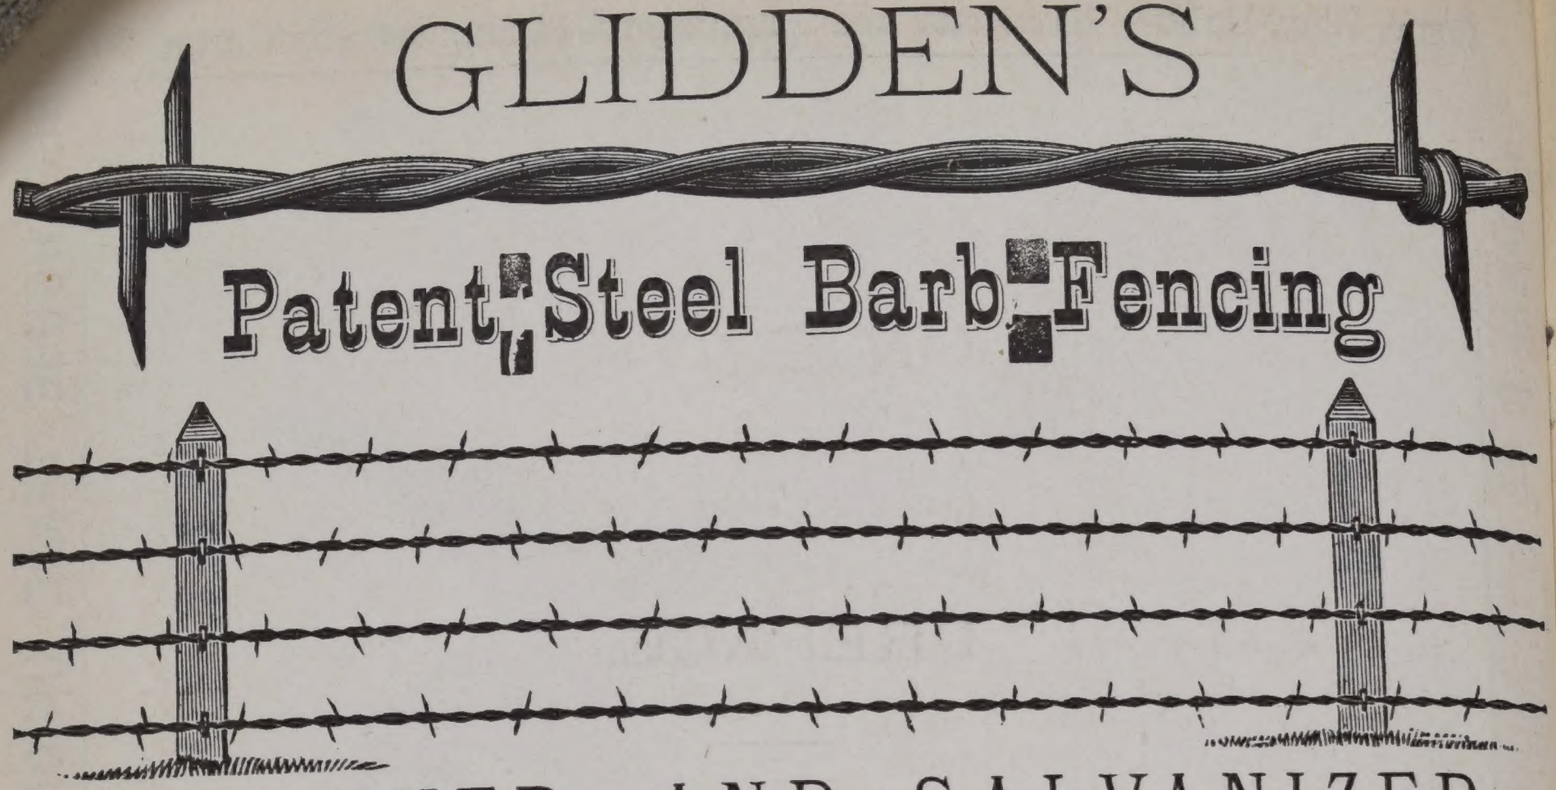
In setting this District Directory adrift upon the sea of criticism and rigid inspection we would feel disappointed indeed if it did not encounter waves of fault occasionally; but we feel that the result of our labors will meet with cordial treatment and no harsh sentiment at the hands of our patrons. To the end that we might perform our task faithfully and as accurately as the circumstances with which we had to contend would allow, we have been diligent in the prosecution of our work, have sought and obtained the subject matter at no little expense and trouble, and we feel therefore that our waif is as nearly perfect in all its features as it was possible to make it. Our thanks are due the officials of the counties that are herein represented, who rendered us much valuable assistance; and we are also indebted to private individuals throughout the district, whose efforts to lighten our burdens and to expedite the publication of our book, are warmly appreciated and kindly remembered. It is our earnest wish that our work's deficiencies may be overlooked, and that its appearance may be satisfactory. We also wish to return thanks for the patronage we received, without which the Directory never could have attained its present size.

As a book of its peculiar kind we modestly claim that it is unexcelled, and we hope that our endeavors to comply to the very letter with what we have promised will meet with due recognition,

THE PUBLISHER.

H. WACHHORST sells Watches cheaper than any house on the Coast.

GLIDDEN'S



Patent Steel Barb Fencing

JAPANNED AND GALVANIZED.

—o—

Stands above all competition, and is the

BEST IN THE WORLD.

—o—

More than One Hundred Thousand Dealers and Consumers Testify to its Superiority.

—o—

1. Because being owners of THE FIRST PATENTS customers are in no danger of suit for infringements.
2. IT IS WARRANTED ALL STEEL and the relative strength is fifty per cent. greater than common iron wire.
3. The only Barb with all prongs projecting from between the twisted wires and cannot be displaced or rubbed off.
4. The only Barb that is coiled around ONE WIRE and does not destroy the CONTRACTION AND EXPANSION BY BINDING the two wires SOLID together; hence the only wire that will surely remain TAUT in all TEMPERATURES, which is the great advantage of a twisted wire.
5. The only Barb with broad base upon one of the main wires which renders it immovable.
6. Our Barbs are uniformly FIVE inches apart, and our wire more evenly and uniformly twisted, giving full strength of both wires.
7. The only Barb Wire you can lay eighty rods or more on the ground and drag with team, and not INJURE OR DISPLACE THE BARBS.
8. The only Barb Wire that gives UNIVERSAL SATISFACTION and has a greater sale than all others combined.
9. The *sharp puncture* at the *moment of contact* is what gives Barbed Fencing its efficacy, and makes it at *once* the dread of every animal.
10. Therefore the Barb should be made of round STEELE WIRE, cut OBLIQUELY, which iusures the highest degree of sharpness
11. After the essentials of sharpness and stiffness are secured for the Barb, the remaining necessary condition is that of its being *fixed firmly* upon the Fencing, so that it *cannot be detached* without destroying the Fencing itself. This can only be accomplished by fastening the Barbs upon one of the two main Wires before they are twisted together.

Barbs presenting *four* points in a group cannot be effective, as the points will inevitably present themselves in *pairs*, thus destroying the efficiency of either, the result being to *scratch* merely, and thus *invite contact*, rather than to *puncture* and *repel*.

All Barbs stamped or cut from Sheet or Flat Metal should be avoided, as they cannot be made uniformly sharp enough to *warn* and *drive away* the animal. Also avoid all styles of Barbed Fencing where the main wires are fastened or *clamped together* by the Barbs, as this tends to destroy the power of the fencing to remain taut and rigid between the posts *in all temperatures*, which is the great advantage gained by the use of two *separate* and *independent* wires twisted together.

We are prepared to supply demand both for Galvanized and Japanned at reduced prices.

Send for circulars.

SACRAMENTO COUNTY.

Was organized in 1850, among the first after the adoption of the State Constitution. It is bounded on the north by Placer and Sutter, on the east by El Dorado and Amador, on the south by San Joaquin and Contra Costa, and on the west by Yolo and Solano Counties. It is among the largest of the State, its area being 1,026 square miles. Its support is derived from the commercial, agricultural and mining interests. It is estimated that one-third of the soil, which is susceptible of cultivation, lies along the banks of its rivers, which is subject to inundation by their waters. To this fact can be attributed the enormous yields of fruit, vegetables, berries, grass and grain, since the sediment deposited by this means equals guano as a fertilizer. On its extremities and in the interior of the County every variety of grapes is cultivated on an extensive scale and attains a remarkable size, as well as a richness of flavor that can scarcely be surpassed, if equalled, in the grape-growing regions of France. Although it is distant from the Pacific ocean about one hundred miles, it is not deprived of the invigorating and health-restoring breezes of that quarter, and although there are times during the summer season when the influence of the sun's rays becomes oppressive and enervating, night-fall is sure to bring complete restoration to the fatigued system.

Reliable data places her foremost on the mortuary list and presents her more favorably than any other county in the whole domain. This fact alone bespeaks for her a glorious future, though her destiny as the brightest among the gems of the constellation is predicted upon important auxiliaries found in her progressive, industrious, and moral citizens, who believe in maintaining the dignity of the law, elevating society to a high standard and encouraging a disposition to improve in any respect. She has within the limits of her borders a happy, prosperous people, and this statement can be verified by observation. It has a population, including Sacramento city, of 35,000 people.

Brighton,

On the C. P. Railroad, five miles west of Sacramento, is delightfully located in a rich agricultural region. The cultivation of vineyards is carried on very extensively, and the grapes attain an unusual size even for California, while the wine manufactered from them is pronounced by the most competent judges to be of a superior character. Wheat and other cereals are also cultivated on a scale of no mean order. The water is pure and the general health good. Travellers will find Mr. S. H. Pugh, the proprietor of the Washington Hotel, a genial and whole-souled gentleman.

Cosumnes,

A polling precinct on the Cosumnes River, eighteen miles from Sacramento. The soil in this section of the country is inexhaustible, while the locality is most desirable as a place of residence. The number of votes cast at the last presidential election was about 150. The residents are intelligent and progressive. A post-office and a daily mail are among its conveniences.

Elk Grove

Is a pretty little town of 300 inhabitants on the line of the C. P. Railroad, thirteen miles west of Sacramento, and in a section of the country whose enormous yields of fruit, grain and vegetables annually have made it famous. The society is good, while the facilities for educational advantages are excellent, and the sanitary condition of the place is sufficient to warrant the prediction that its growth will be steady and permanent. Its future, if these facts are any criterion, is indeed very promising.

Folsom

Is the second town of importance in the County. Its chief support is derived from the agricultural and stock interests. At an early day placer mining was carried on very extensively in the immediate vicinity of the place. Its population is put down at 1,000. The society is of a superior character, while its schools are excellent. There is a weekly paper published here, which sparkles with spicy thought. The branch State prison, now under process of construction, is on the American River, two miles above the town. The quarries, in close proximity to the town, possess an illimitable amount of very fine building stone, which when polished presents a handsome appearance and is in great demand. The material used in the prison comes from them, whose existence accounts for its presence there.

Franklin,

A pleasant village on the upper Stockton road, fourteen miles west of Sacramento. Its pupulation is in the neighborhood of 100 souls, and the abundant crops that are annually harvested in the vicinity are sufficient to support the argument that it is a favored section. Land can be obtained at reasonable rates, while the water is excellent.

Galt

Is a town whose population is variously estimated to be from 300 to 500, twenty-two miles west of Sacramento, and is a station on the C. P. Railroad. Its chief support is derived from the agricultural interest of that section, where cereals are produced in quantities actually astonishing. The quality of the soil contiguous to the town is second to none in the State, a fact that has been repeatedly verified ever since its settlement. It is also the terminus of the Ione branch of the C. P. Railroad. Good schools, pure water, and a high order of society are features that are at once attractive, and bespeak for it a healthy growth.

Isleton

Is delightfully situated on Andrus Island, in the Sacramento River, about forty miles below Sacramento. It presents a very neat appearance and has some attractive features, chief among which is its isolation. The soil is very fertile, and when the construction of the levee is consummated, its value can hardly be estimated. Fruit, grain, and vegetables thrive luxuriantly. It has a post-office, daily mail, and an express office, besides a good hotel.

Is an old mining town, whose streets at the present time do not present the activity and confusion that characterized its condition at an early day. The hills around the place bear evidence of a vast amount of labor having been expended in search of the precious ore. Dairying and farming are the pursuits which are its main support now, though mining is still carried on.

WHITCOMB JAMES. farmer and stockraiser, 200 acres; 14 miles west of Sacramento, on the Sacramento river. A beautiful place and a delightful location

Williams Nathaniel, physician; farmer, 444 acres

Routier Station.

The country in the vicinity of this village can scarcely have justice done it by word picturing. The fields of grain, extensive vineyards and orchards that skirt the road on either side form a subject that would exert the fancy of a poet to its utmost to describe. It is on the S. & V. Railroad, thirteen miles from Sacramento.

HEALD'S
BUSINESS COLLEGE

24 POST STREET, SAN FRANCISCO.

The Leading Commercial School on the Coast.

E. P. HEALD, *President.* F. C. WOODBURY, *Secretary.*

The object of this school is to educate for the practical affairs of life. In addition to a complete and systematic course of business training, it instructs thoroughly in the English branches, in French, German, and Spanish, in civil engineering, surveying, drawing, telegraphy, phonography, etc.; thus affording a most useful course of instruction for boys, young men, and ladies, and rendering this school

THE MODEL COLLEGE OF THE PACIFIC.

The aim of the school is not alone to fit its pupils for clerks and book-keepers, but also to impart such a broad culture as is now demanded of a man of business affairs. The mere fact of being a commercial man should be a presumption that he is well educated, and a gentleman. It is the design of this school—by its comprehensive course of instruction, and its thorough training in mercantile affairs and correct business habits—to render its graduates distinguishable by their gentlemanly ways and good business principles, as well as noted for industry, perseverence, and enterprise.

The Business Course.

This will include Book-keeping in all its forms, by both single and double entry, comprising practical work in Banking, Jobbing, Importing, Commission, Railroading, Brokerage, etc.; Arithmetic, including abbreviated forms of commercial calculations in use by good accountants; Penmanship, with complete analysis and movement exercises; Correspondence, comprising all the different forms with rules for use of capital letters and punctuation; Mercantile Law, with lectures on all the important topics; English Branches, including reading, spelling, grammar, composition exercises, rhetoric, etc.; French, German, and Spanish; Drawing in its various forms; Business Forms of every variety; actual Practice in all kinds of business; Lectures on book-keeping, penmanship, business customs, political economy, and various topics calculated to impart to the pupil habits of industry, promptness in business affairs, and reliability of character.

The Plan of Instruction

Includes both class exercises and individual instruction. By this plan our pupils are advanced very rapidly, and greater progress is shown in three months than in many other schools in one year. By our system the student is never retarded by those less advanced or of inferior ability, and is never obliged to remain idle waiting for needed instruction.

Theory and Practice

Are combined in such a manner as to make each a great aid to the other. No course of mere theory can be relied on as a training for business affairs. Our system comprises all the details and the practical workings of the counting-house, bank, and business office. By its novel plan of operation the pupil is prepared to enter at once upon his duties as book-keeper, cashier, entry clerk, or accountant. During his course he is thoroughly instructed in changing books from single to double entry, detecting errors in books, opening and closing books in all kinds of business, making out all kinds of business statements and papers, writing up all the different forms required by the active business man. In fact our novel system of actual business practice has been pronounced by all who have examined its workings, the most complete and practical plan of instruction ever introduced into any school in the country—a fact which is amply proved by the business capacity of our graduates.

Rates of Tuition.

The rates of tuition for the business course, as above, are as follows:

Full Business Course, 6 mos.....	$75	Evening Sessions, 6 mos.....	$45
" " " 3 "	50	" " 3 "	25
" " " 1 mo.	20	" " 1 mo.	10

Pupils will be received for special instruction in any branch at reasonable rates.

Hours of Instruction.

Day sessions will continue each week day, except Saturday, from 9 A. M. to 12 M. and from 1.30 to 4 P. M. Evening sessions will continue from 7 to 9 P. M., during eight months, extending from first of September to first of May the following year.

Further Information.

Full particulars regarding the school and its workings may be had at the office of the College, 24 Post Street, or by addressing

E. P. HEALD, *President Business College,*
SAN FRANCISCO, CAL.

www.benchm

Heald's Business College,

24 POST STREET, NEAR KEARNY,
SAN FRANCISCO.

Designed to impart a thorough English Education, a complete Business Training, and practical instruction in Modern Languages, Drawing, Telegraphy, etc.

The School-Room and Counting-Room

Are united upon a plan that secures to the student all the practical advantages of each. There is in operation a Banking House, with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fully illustrating the banking business.

The school-room is elegantly fitted up with

Merchandising, Jobbing, and Importing Emporiums,
Insurance and General Banking Offices,
Commission and Forwarding Houses,
Express and Post Offices.

SOME OF THE SPECIAL ADVANTAGES OF THIS SCHOOL.

The attention given to gentlemanly manners and correct business habits, and the fact that its Business Training is not confined to Book-keeping, Penmanship and Arithmetic, but imparts such useful information as the times now demand for a high position in the mercantile community.

The careful discipline which is maintained at all times in the school, and the requirement that every pupil shall be prompt and punctual in attendance, as well as energetic and business-like in all work, thus forming habits which are necessary to his future success.

The employment of only first-class teachers in every Department, and in sufficient numbers to give personal attention to every pupil.

Its complete system of ACTUAL BUSINESS PRACTICE, by which pupils are fitted to enter the Counting-house directly from the School.

The high standing of its graduates in the business community.

The pains taken for securing positions for graduates in good business establishments.

The admission of pupils of both sexes and of any age, thus rendering young boys more manly by the association with pupils of an older age.

In having the largest and best ventilated and arranged school-rooms, and the largest yearly attendance of any Business Training School in America.

The immediate notification of parents in case of absence of any pupil, and the pains taken to keep them informed of the progress and deportment of their sons.

The fact that each pupil becomes an elegant business penman before graduating.

Its Departments of Modern Languages and Drawing, in which pupils can receive instruction without extra charge.

Its complete Department of Telegraphy, in which students are fitted to enter at once upon their duties as operators.

Finally, its freedom from disadvantages of public schools in its exclusion of boys of a bad character; the gentlemanly deportment required from all pupils; in having no change of teachers; in giving individual instruction, and the consequent rapid advancement of each pupil; in the course of instruction being so arranged as to allow the student to enter at any time; in having no vacations to compel the pupil to leave before finishing his course; and in the honest endeavor of every teacher to promote the best interests of each pupil in the school.

DEPARTMENT OF TELEGRAPHY.

This department is a complete institution of itself, and affords facilities for learning telegraphy practically and thoroughly. Instruction in this branch is of very little avail unless special pains are taken to train pupils for operators from the beginning; and a glance at our department will convince any one that we have the facilities for so doing.

INSTRUCTION FOR LADIES.

Ladies are admitted into all departments of the College on the same terms and conditions as young men. Their progress in all branches thus far has been most flattering.

GENERAL INFORMATION.

Pupils can enter the College at any time, and pursue their studies to graduation without interruption, if they see fit to do so. Pupils not sufficiently advanced for the Business Course can enter for instruction in the English Department.

Modern Languages and Drawing are optional studies, and may be taken or not as the student may see fit; but no extra charge will be made for them when pursued.

The discipline of the school is very careful, in order to impart such habits as shall conduce to the future success of graduates.

Visitors will be always welcome at the College, as we are pleased to have the public inform itself of the merits of our school.

For information on any point not fully understood, do not fail to call at the school, or to write to us.

HEALD'S COLLEGE JOURNAL,

Published monthly by the College and containing full particulars regarding the Course of Studies, Expenses, etc., also, a large amount of interesting general reading, may be had free of charge, either at the College Office, 24 Post Street, or by addressing

Sacramento.

The growth of this city during the past year has been very marked, and its importance as a commercial center is more thoroughly established than ever. It is gradually becoming the distributing point for supplies for a very considerable portion of the Pacific coast, and it may not be vain to predict that the time is not remote when it will rival San Francisco as an emporium of trade. The improvements of the city, in opening and grading streets, in the erection of dwellings, many of them costly and elegant, and in the large number of new stores and warehouses, indicate a degree of prosperity highly gratifying to its citizens and encouraging to those who contemplate making it their future home. The increase in railroad facilities has been considerable, and Sacramento may now claim to be a permanent railway center. The population of this city will reach nearly if not quite 27,000, and these figures are based upon the number of names that appear in this Directory, which amount to upwards of 10,000 for the city. Sacramento has long enjoyed a just reputation for the quiet beauty of its streets and private dwellings, and this has been largely added to in the past year, through the lavish expenditure and refined taste of its citizens. The public improvements are also noticeably extensive, more especially in the grounds surrounding the stately Capitol, which, through the liberality of the last Legislature, are being converted into a spacious and beautiful park, embracing about 34 acres tastefully laid out in walks and drives, and abounding with shrubbery of endless variety.

The Central Pacific railroad Company has added very greatly to the general improvements in the city, in the enlargement and beautifying of buildings and grounds, and are about erecting a costly passenger depot of imposing dimensions, which, when completed, will be a prominent feature in architectural, grace and design.

One of the most gratifying facts concerning Sacramento, and that commends it in an especial manner to strangers is its almost total deliverance from epidemics of all kinds, and the city can now take rank as one of the most healthful in the State.

CAPITAL NURSERIES,

SACRAMENTO, CAL.

WILLIAMSON & CO. - - - Proprietors.

At these old, reliable and popular Nurseries can be had all the best and leading fruits, selected with special reference to the demands of this coast (regardless of cost) as well as all kinds of ornamental trees, shrubs and plants.

We also have a branch nursery and fruit farm at or near Penryn, Placer County, where we make the semi-tropical fruits a specialty, particularly the Olive, Orange and Lemon, thus obviating the difficulties of long shipments and heavy freights on these trees from southern counties of the State, besides the advantage to the planter of getting trees not only cheap and fresh, but trees already acclimated. We are now prepared to furnish all kinds of desirable nursery stock, TRUE TO NAME, either wholesale or retail at lowest market rates. CATALOGUES AND PRICE LIST FREE ON APPLICATION.

Address CAPITAL NURSERIES, P. O. Box 407, Sacramento, Cal., or ORANGE HILL NURSERY, Penryn, Placer Co., Cal.

McFARLAND & FARR,
Attorneys for Land Claimants,

Office—Capital Bank Building, Rooms 4 and 7,

S. W. Corner 4th and J Streets, near U. S. Land Office, SACRAMENTO.

We would respectfully call attention to our facilities for the prosecution of Land and Mining Cases before the U. S. Land Office of this State, and the General Land Office at Washington, D. C. Contested and Ex-parte, Homestead, Pre-emption, Town Site and Mining Cases promptly and efficiently conducted. Special attention given to Applications for Patents to Mines; to Suspended Pre-emption, Homestead and Mineral Entries before the General Land Office at Washington, D. C.; to Cases in which additional proof is required, and to procuring title under the late law for the disposal of Timber Lands. Will also attend to business before the State Land Office. Land and Mine Patents procured; Blanks and Instrnctions furnished Claimants. Land Warrants and Scrip for sale. Title to land subject to Homestead and Pre-emption Entry, procured without residence or improvement, in any quantity desired. We will also conduct any Litigation entrusted to us in the Courts, involving the right to Agricultural Lands and Mines.

McFARLAND & FARR, Sacramento, Cal.

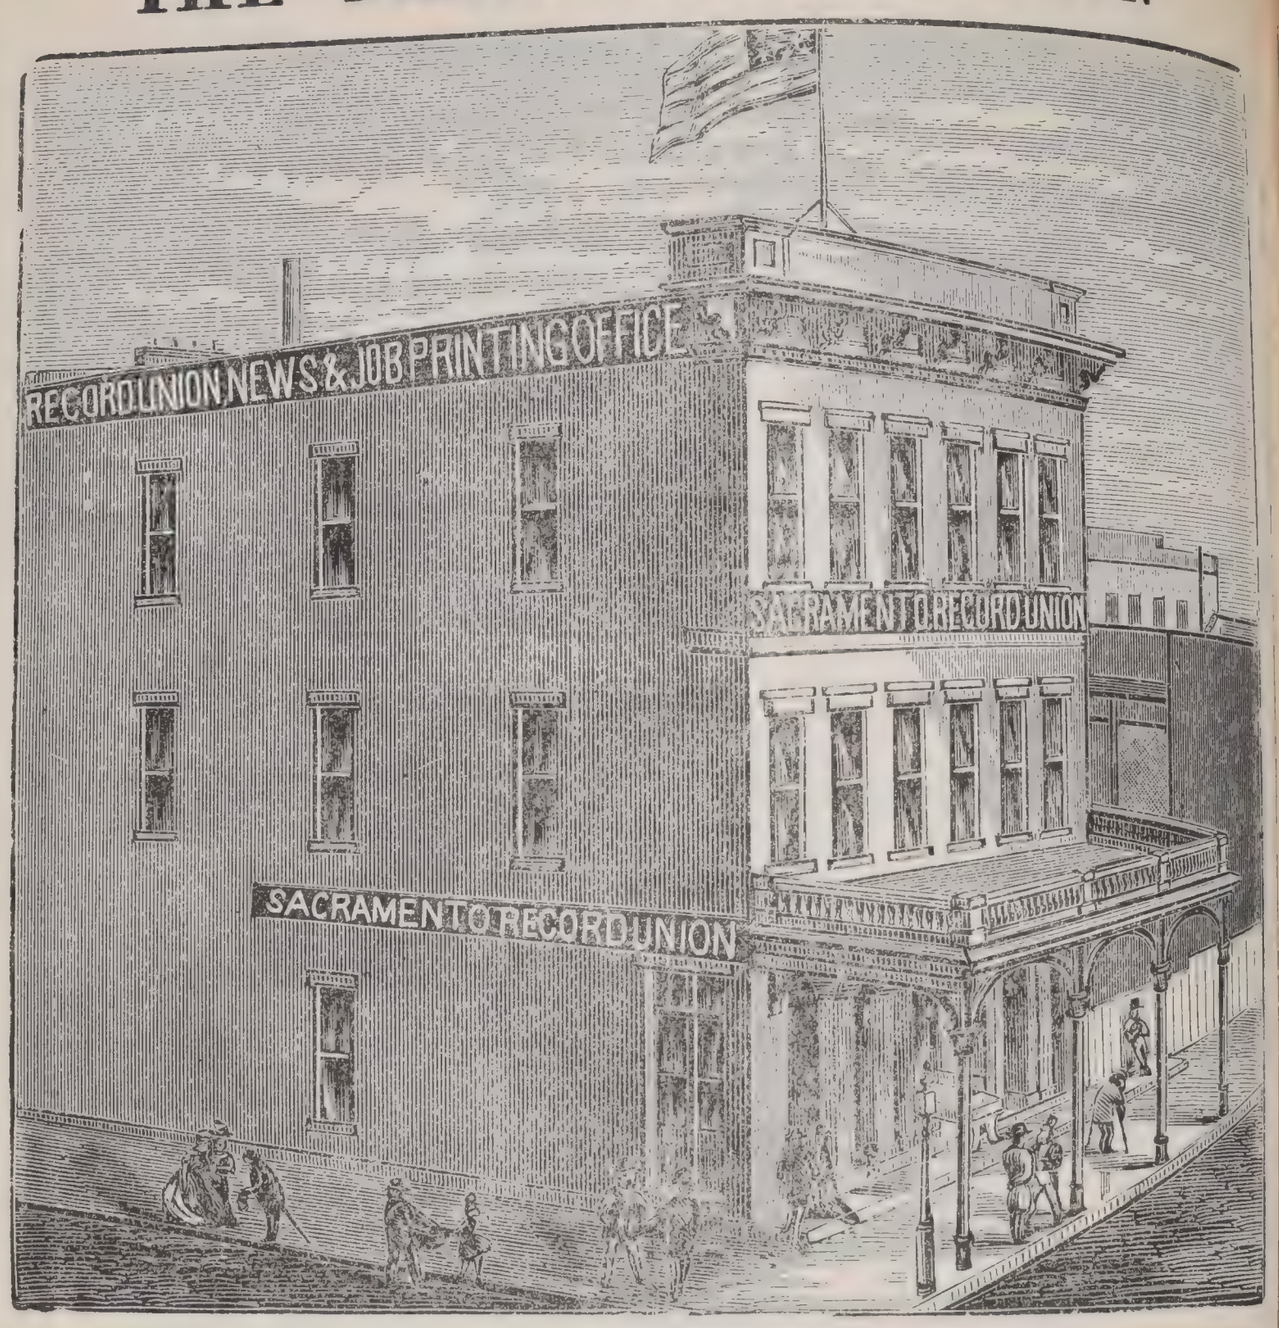
THE DAILY RECORD-UNION



Is the only paper of general circulation published outside of San Francisco, in California. The RECORD-UNION is a consolidation of the business, circulation, good-will, and news franchises of the Sacramento DAILY UNION, established in 1852, and the Sacramento DAILY RECORD, established in 1867. As the successors to the circulation and long established business of the two great dailies mentioned, it takes rank as the oldest and best established journal published in the interior of all the Pacific States and Territories. It is the only paper receiving the daily telegraphic reports of the Associated Press of New York, and the only member of the Associated Press of California published outside the City of San Francisco. It is the only paper published in the capital of California having a general circulation. As a political, news, and literary journal, it occupies the front rank of journalism on the Pacific slope. The proposed new Constitution—the pamphlet edition of which this circular accompanies—will be ably discussed and impartially considered in the RECORD-UNION. The departments of the RECORD-UNION, beside editorial and news departments, are "Correspondence," "Commerce," "The Household," "Sports of the Field," "Questions and Answers," "Agriculture," Enigmas and Puzzles, Literary Reviews, "Scientific," "Art," and "Educational" departments, each under special able editorial management. The DAILY RECORD-UNION is, in size, 38½x26 inches five publication days, and 38½x52 (a double sheet) one day in each week, thus giving 224 columns each week. It is distributed by carriers in all the cities and towns of the Pacific Coast, and has the largest home circulation. Subscription price, $1 per month; $10 per annum.

The DAILY RECORD-UNION is the acknowledged leader and exponent of public opinion in the Pacific States and Territories.

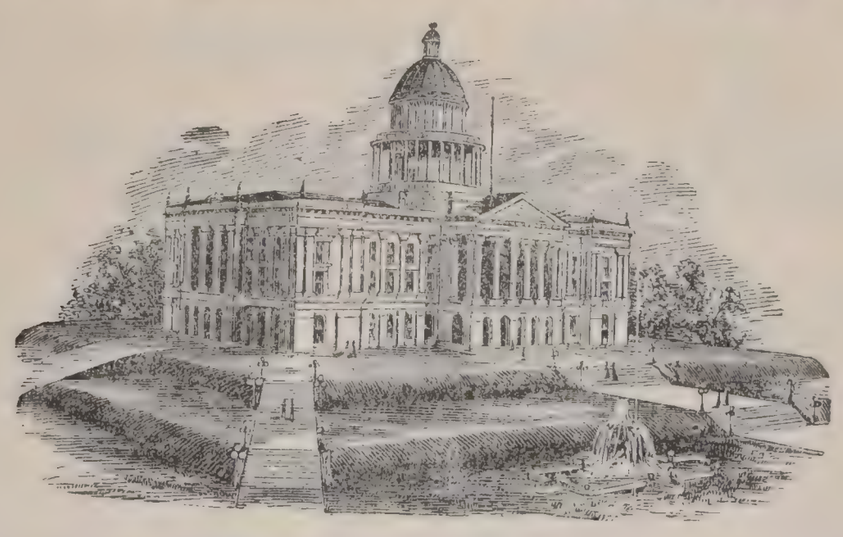
Editorial and Managing Director.

THE SACRAMENTO WEEKLY UNION.



THE SACRAMENTO WEEKLY UNION is published in semi-weekly parts, and is issued on WEDNESDAYS and SATURDAYS of each week. Each issue embraces Eight Pages, containing fifty-six columns, thus giving sixteen pages, or one hundred and twelve columns of reading matter each week. This is by far the largest amount of reading matter furnished in any weekly published west of Chicago or St. Louis. It is, in fact,

A DOUBLE WEEKLY,

Furnishing one hundred and four papers in each annual volume, as against the fifty-two issues of the old style weeklies. Notwithstanding this, the rates of subscription are as low as those at which the ordinary weeklies are furnished. The highest rate charged is for single copies sent to one address, $4, while in clubs, it is afforded as low as $2 dollars per copy. The issue dated Wednesday of each week contains the news of Saturday, Sunday, Monday and Tuesday. It is printed on Tuesday morning, and carries the entire news matter of the four days mentioned to its readers. The second part is dated on Saturday, containing the news of Wednesday, Thursday and Friday, with a large proportion of the miscellany and correspondence belonging to Saturday. The two issues comprise the issue of one week, and, when placed together, constitute

A Paper Unsurpassed in Value

By any published anywhere in the country. It is therefore strictly in accordance with the facts to say that the WEEKLY UNION is—

First—The best vehicle of news available to those whose mail facilities do not afford the opportunity of reading a daily.

Second—The WEEKLY UNION is published at lower rates than is afforded by any other weekly publication on the Pacific Coast.

Third—The WEEKLY UNION presents the largest and best variety of matter in any paper on this coast.

Fourth—All the departments represented in the DAILY RECORD-UNION, appear in the WEEKLY.

The merits of this incomparable journal are being more fully appreciated now than at any time in its history.

ITS CIRCULATION

Has always been and remains more general than that of any other paper published in California, and it is constantly increasing. It circulates in every part of California, Nevada, Oregon, Washington Territory, Idaho, Montana, Utah, Arizona, and the Sandwich Islands, with a large list of subscribers in the Atlantic States and Europe. It may safely challenge any paper published on the coast in the extent of its circulation. Within the past year that circulation has had a marked and rapid increase. The WEEKLY UNION is therefore at the very head of all papers of its class published on this coast.

TERMS.		LIBERAL TERMS TO CLUBS.

HOWE'S HIGH SCHOOL

—— AND ——

NORMAL INSTITUTE

IS LOCATED ON THE

West Side of Sixth Street Between K and L,

SACRAMENTO, CAL.

Success has attended all its sessions, from its foundation to the present time. Its course of Instruction is thorough, and its Methods of Teaching systematic and original. These methods have been pronounced very superior by many distinguished Educators who have visited its class-rooms.

Those who desire a thorough education, and especially those who expect to make teaching a profession, are cordially invited to examine for themselves its method of instruction. Its doors are always open; there are no vacations. Classes in Elocution on Thursday and Friday nights.

HENRY BROSIUS'

Elixir of Life.

—o—

This ELIXIR, being composed of ingredients recognized as vital to the blood. is necessarily a great preventive against all diseases arising from an impure state of the Blood. It promotes digestion, causes a free discharge of all accumulated crudities and bilious matter, thus removing the cause, and curing the evil from the root.

It will impart a healthy look to the complexion and strengthen the whole system. In time of Epidemics it is an absolute preventive against all contagious diseases.

Its daily use in small doses, say 7 drops morning and evening, will keep the whole organism in healthy vigorous activity and tend to prolong life.

Its use is especially recommended for the following list of Diseases: Bilious, Remittent and Intermittent Fever, Chills and Fever, Indigestion, Giddiness, Headache, Hypochondria, Palpitation of the Heart, Colic, Cold, Disorders of the Liver and Kidneys, Skin Diseases, Boils, Sores, Ulcers, and a sure cure for Chronic Costiveness.

In cases of Complaints and Disorders peculiar to Females it is a safe and agreeable remedy taken in mild doses.

In cases of Poisoning, a good strong dose taken in time will prove an antidote. It will cure Dropsy.

This ELIXIR is an infallible Vermifuge for Children.

The undersigned is also a **Practical Baunscheidtist,** and by its application in connection with the use of the ELIXIR he is enabled to effect cures, especially in cases of RHEUMATISM and SKIN DISEASES, including Salt Rheum, where every other treatment has failed.

HENRY BROSIUS, Practical Baunscheidtist,

S. W. Corner 17th and J Sts., Sacramento, Cal.

BOOKS, STATIONERY, PIANOS, MUSIC, ETC.

ALSO,

Printers, Lithographers, Engravers and Binders.

The most complete business of its kind in the country. It is thoroughly systematized and divided into departments—each being in charge of a competent Manager—as mentioned below.

Wholesale Department. Headquarters located on the first floor. All business connected with the wholesale and jobbing trade is referred to it. The immense stock of Stationery in all its branches, occupying portions of three floors, is under its management.

Retail and Library Department. On the first floor. Whatever is for sale in this entire establishment can be purchased at retail in this department. The miscellaneous, scientific, medical and theological books are specially under its supervision. All are thoroughly classified, there being nearly two hundred divisions and subdivisions, embracing every prominent subject of reference.

Law Department. On the first floor. It embraces the law books—about seventy-five volumes; and the legal blanks—over 1500—published by the firm; and a very large and complete stock of text-books and reports imported from the East and Great Britain.

Educational Department. On the first floor. It includes such school books and school stationery as are published and manufactured by the firm, and an immense stock of school books, school apparatus and school furniture imported from the East. The main stock is stored in deep alcoves extending along nearly one entire side of the basement.

Bank and Official Department. Printing, Lithographing, Engraving and Blank Book Manufacturing, especially for Banks and Public Officers. Also, the best qualities of Stationery for their use always in stock in quantities.

Music Department. Embraces several lines of pianos, square and upright, and a large variety of cabinet organs and melodeons. Also a fine stock of sheet music and music books. Latest music periodicals kept on file for free reference.

Subscription Department. On the second floor. The firm has the agency for the best and most popular subscription books, maps and pictures published in the East, and has a large corps of sub-agents constantly in the field in every part of the Coast. Agents wanted.

Printing and Lithographing Department. This department occupies the entire third floor, and has the necessary steam presses and machinery for executing all kinds of printing, lithographing, engraving, initial stamping, etc.

Blank Book Manufacturing Department. Occupies the entire fourth floor, 75 by 170; contains the most complete set of machinery for ruling, folding, binding and manufacturing blank books to be found on the Pacific Coast. The machinery of the printing and binding departments is propelled by an engine and boiler located under the Stevenson Street sidewalk.

Publishing Department. Bancroft's Historical Library, on the fifth floor, is the basis of important scientific and descriptive works of a local nature, and maps and books of reference relating to the Pacific Coast, to be issued by the firm from time to time.

The stock of merchandise and manufactures comprised in the above Departments is the most complete and varied of any single establishment in this line of business to be found in any country in the world. *Special lines* of goods and *special features* of the business are mentioned below.

Agents for A. H. Andrews & Co., Manufacturers of the Celebrated Triumph School Furniture.
Agents for the Celebrated Knabe Pianos.
Agents for the N. Y. Silicate Book Slate Co.
Agents for the Owen Paper Co.
Agents for the Prince Organs, over 54,000 of which are now in use.
Agents for the Type Writer.
Bank and Counting House Stationers.
Blank Book Manufacturers.
Blanks and Books for County Officials to order.
Bookbinders.
Book and Job Printers.

AMADOR COUNTY,

ORGANIZED in 1854. It is bounded on the north by El Dorado, on the east by Alpine, on the south and southeast by Calaveras, and on the west by Sacramento and San Joaquin counties. Its area is 700 square miles. One of the grandest achievements in the history of its industrial enterprises was the construction, in 1874, of the Amador Canal, which carries 5,000 inches, and furnishes motive power to the machinery used in its quartz mills, and affording means by which hydraulic and placer mining can be advantageously carried on. Jackson, the county seat, is centrally located, where a number of stage lines converge and diverge, connecting with San Francisco, Stockton and Sacramento by the C. P. Railroad at Galt. It ranks foremost as a mining county, and about four fifths of its soil contains mineral deposits, its principal support, therefore, is derived from that interest. Many noted mines are located in this county, chief among which are the Empire, formerly the Phœnix, and the celebrated Keystone. What land there is that is used for agricultural and horticultural purposes is susceptible of a very high state of cultivation, yielding abundantly. Its elevation is conducive to the development of apples and other fruits, which acquire such a perfection of size and a richness of flavor in the pure mountain air that they are more eagerly sought after by dealers and consumers in the cities and towns of the valleys than those grown in lesser altitudes. The ranges for cattle, sheep and other stock are excellent, a fact that is not lost sight of by the stock raiser, as vast numbers of the various species are seen at nearly all seasons browsing on the verdure-covered hill sides. The beef and mutton of the mountain counties is far superior to that which is claimed to be stall fed in the valleys. The pursuit of dairying in Amador is fast assuming proportions of importance, and it is safe to say that before the lapse of a great while the exportation of cheese and butter will be a source of great revenue. The absence of malaria in its soil, together with the presence of pure and sparkling water whose supply is inexhaustible, needs no comment on its desirability as a place of residence for those in search of a "healthy spot." Its population is decidedly cosmopolitan, every civilized nation on the globe being represented, about 60 per cent. of whom are foreigners.

The Mutual Investment Policy of the PACIFIC MUTUAL guarantees dividends and surrender values.

Hand, Rip, Panel and Cross-Cut Saws, Files, Rasps, etc., at H. WACHHORST'S, 79 J Street, Sac.

H. & E. RIVETT'S is the place to get your Job Printing done neatly and correctly, 214 and 216 M Street, Sac.

Amador County

Amador City

Has a population of 600 souls, is beautifully situated in a romantic spot on the Jackson and Drytown wagon road, two miles from Sutter Creek, and is very nicely built. It has a daily mail and telegraphic and telephonic communication. Mining is the pursuit most extensively engaged in. It is the head quarters of the Keystone Consolidated Mining Company, to whose genial and whole-souled superintendent, C. Hewitt, Esq., we are under obligations, and also the site of the original Amador Mine. J. Johns, superintendent, whose courteous treatment we shall always remember

Drytown,

At one time a busy mining camp, but at the present time, from some cause, perhaps from a lack of enterprise on the part of its prominent men, it reminds one of a place whose "best days" had been seen. There is a good hotel, kept by the "right man in the right place," several stores and a school house. The population is cosmopolitan in its character, though the American element predominates. It is surrounded by a rich agricultural district, while mining is actively carried on in close proximity to the place. It is 40 miles East of Sacramento and has a daily mail carried by stages. Perhaps if a little life were infused into some of its best citizens, it would soon be "itself again." It has a population is 200 souls.

Ione City

Has a population of 800 persons, is beautifully and tastily built and is regularly laid out. It has an excellent school, a weekly newspaper and its churches are in a prosperous condition. The residents are intelligent and energetic, displaying a commendable pride in their place by constructing their business houses and residences with an eye to convenience and architectural beauty. The yards are rich in the possession of shrubs, plants and trees of rare species and are consequently an attractive feature of the place. It is the northern terminus of the Amador branch of the C. P. Railroad, has telegaphic communication and a daily mail. The mines in the vicinity of the town are gold producing, though the chief pur-

H. WACHHORST sells Watches cheaper than any house on the Coast.

RED HOUSE TRADE UNION, ONE PRICE, 198-206 and 208 J Street, Sacramento. See them.

suit engaged in is farming fruit and vegetables attaining a remarkable size and a delicious flavor. It is 48 miles from Sacramento *via* Galt. The Veranda Hotel is the popular hostely, where the tourist or the commercial traveller will find a cordial reception and meet with good treatment at the hands of its general proprietress, Mrs. M. R. Kingsley, and its clever young clerk, Mr. Will Kingsley. The water is pure, clear and cold, and its sanitary condition is most excellent. The scenery in the immediate vicinity is picturesque and grand.

E. D. FARROW,
Physician & Surgeon,

OFFICE—FORD & GRAY'S DRUG STORE, MAIN ST, IONE CITY.

Chronic Diseases a Specialty.

Mountain Spring House

THEODORE LITHGOW, Prop'r.

Best accommodatiohs for man and beast. Bar connected with the house. Half way between Jackson and Ione City, Amador County.

Jackson,

The county seat of the county, and a place of twelve hundred inhabitants. It is twelve miles from Ione City, on the Jackson and Drytown stage road, has two weekly newspapers in a prosperous condition, telegraphic communication and a daily mail. The material used in the construction of its buildings is chiefly stone and brick, and it therefore presents a substantial appearance. The culture of fruit in the immediate vicinity is an important feature in its industrial attractions, while there are quite a number of large farms which are annually sown to

The PACIFIC MUTUAL has paid $2,000,000 to policy holders and their representatives.

For your Job Printing go to A. & E. RIVETT'S, 214 and 216 M St., Sac. Send orders through P. O. Box, 403.

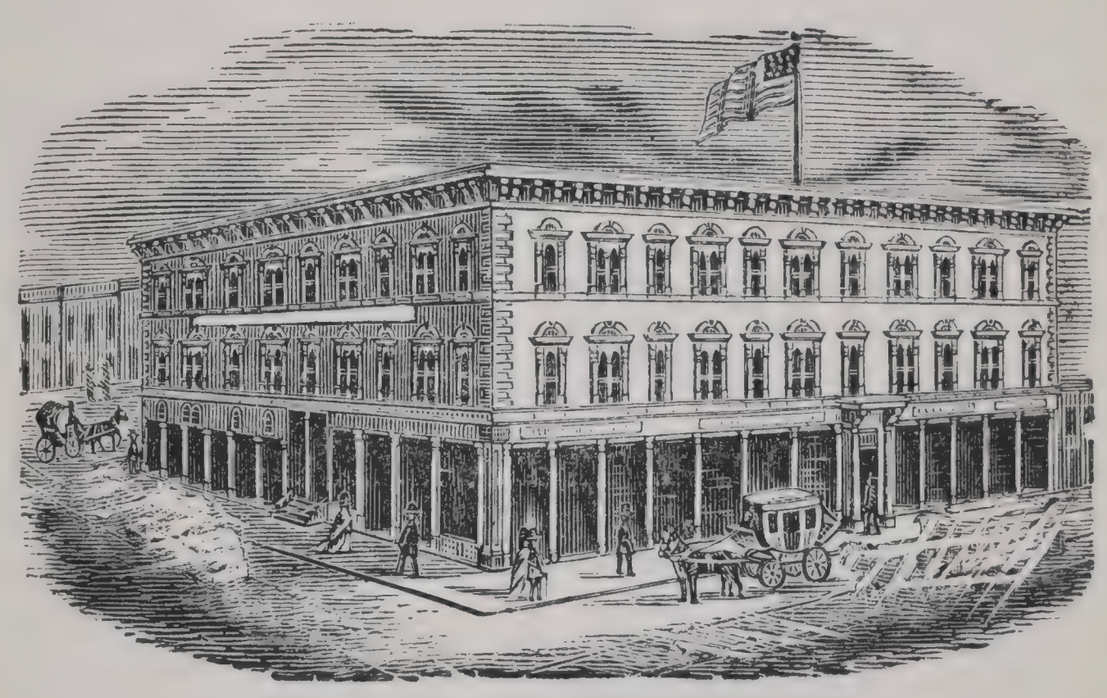
VERANDA HOTEL,

Mrs. M. R. Kingsley, Prop'rs

IONE CITY, CALIFORNIA.



RATES:

Board and Lodging, per week	$7.00
Day Board, per week	5.00
Board and Lodging, per day	1.50
Single Meals	50 Cents

The table is supplied with the best the market affords. The house has been thoroughly renovated, and is decidedly the best hotel in the place.

The clerk, Mr. Will. Kingsley, is always affable and obliging and the most courteous treatment is assured.

H. WACHHORST, Agent for American Watches, 79 J St., Sac.

H. H. PIERSON. DENTIST. NO. 111 J ST. Nitrous Oxide or Laughing Gas for Painless Extraction of Teeth.

Huntington, Hopkins & Co., 54 K St., Dealers in

grain. It depends some on the mining interest for its support The people are intelligent as a rule and the society is represented by all nationalities. Its hotels are good, schools excellent and churches in a flourishing condition. To the lover of a retired, quiet life, it offers rare inducements, while the pursuits of the farmer, horticulturist, or viniculturist can be profitably engaged in. The semi-tropical fruits ripen in the open air. The sanitary condition of the town is encouraging to invalids.

The Court House is a neat-looking building and is on a prominent elevation overlooking the principal portion of the town, and the bar is composed of an array of attorneys to whom any community might point with feelings of pride. The good judgment of the people in the selection of county officers is made manifest by the presence of affable, honorable and competent gentlemen in the "temple of justice."

New Chicago,

(Post Office Drytown)

The growth of this place, like its eastern namesake, has been marvelous. Its location is very pretty, and its chief support is derived from the mining interest. It has two twenty stamp mills, one of which is in active operation, giving employment to 100 men. It has one good hotel and three stores, one shoe shop and a livery stable. It is 7 miles north of Jackson, one mile east of the Jackson and Drytown stage road. The mines in the vicinity are paying well, from which 85 tons of ore are taken and crushed daily

Plymouth

Is a thriving and prosperous town of 600 inhabitants, is twelve miles north of Jackson on the Jackson and Latrobe stage road. It has a graded school with one hundred scholars, taught by a gentleman of experience and ability, one church, three hotels and several pretty business houses and nice residences. Fruit, vegetables and grain are grown to a considerable extent, though mining is the interest to which it looks for its support. The noted Phoenix mine is located here, which employs one hundred and fifty men. It is nicely situated and beautifully laid out. It is claimed by newspaper men of renown that its growth is without a parallel in the history of California towns. The fact that three physicians have a very limited practice speaks highly of its sanitary condition. The water, like its fruits, is excellent. It has telegraphic communication and a daily stage mail, connecting with eastern and western bound overland trains. The scenery is picturesque; and the society is of a high order. The Independent Order of Good Templars has a membership of 105. The Forest House is the leading hotel.

Billheads, Cards, Labels, and all kinds of Job Printing at reasonable rates, A. & E. RIVETT'S, 318 Sansome St.

Pacific Business College,

No. 320 Post Street, San Francisco.

THE LEADING COMMERCIAL COLLEGE ON THE COAST!

Elegant Halls; New Furniture; Thorough Instruction; Practical Teachers; Perfect Discipline; Large Number of Students; High Standing with the Public.

This is the oldest College in San Francisco that makes a Business Education its distinct and separate specialty. Its graduates who hold lucrative and responsible positions are more numerous than those from all the other Business Colleges on the Coast. It is the only College that issues Life Scholarships for a full Business Course. It is centrally located, on Post Street, opposite Union Square, in one of the most quiet and pleasant situations in the city. It has the most commodious and elegantly furnished halls, and the most complete system of actual business training.

YOUNG AND MIDDLE-AGED MEN,

Wishing to prepare themselves for the practical duties of life, at the least expense of time and money, will find this the best school. Students learn just what they need to insure success. A Diploma from this College is of great value to a young man in gaining a foothold in business. No young or middle-aged man is now considered fully qualified for the active duties of life, and the demands of business, unless he enjoys the advantages of a thorough commercial education. A course of commercial training is no less important to the mechanic, the farmer and the manufacturer, than to the merchant and banker.

THE BUSINESS COURSE.

The Business Course is far more thorough and extensive than that of any other Business College. Our practical system of Actual Business Teaching is the best ever introduced into any school. It combines

THEORY AND PRACTICE

In such a manner as to make each an essential help to the other, and the School-room and Counting-room are united upon a plan that secures to the student all the practical advantages of each. There is in active operation a Banking House with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fu ly illustrating the Banking business.

The student *Buys, Sells, Ships, Barters, Consigns, Discounts, Insures, Draws Checks, Notes and Drafts, Gives Leases, Deeds, etc.*, and goes through the entire routine of actual business. He becomes acquainted with changing books from Single to Double Entry, and *vice versa*; and also with Joint Stock and Partnership Books, and every style and form of book-keeping practiced in well-regulated Business Houses. By this system the student receives, while in the school, the same practice in conducting business affairs that he would in a *bona fide* Bank, Office, or Counting-house. Each student receives individual attention from the teachers, and can thus advance as rapidly as his ability will permit.

SPECIAL INFORMATION.

Time of Entering—There are no term divisions and no vacations. Students can enter at any time during the year with equal advantage.

Qualifications for Entering.—A fair knowledge of the common English branches is all that is required to commence the Business Course, though the better the educational foundation a student has the more rapid and successful his progress. Students not sufficiently advanced to commence the Business Course, can make arrangements to receive the necessary preparatory instruction in the Academical Department.

School Hours.—Day Sessions are from 9 to 12 A. M. and from 1 to 4 P. M. Evening Sessions are from 7 to 9 during the entire year.

Discipline.—The discipline of all the departments is very strict; the student is required to be regular in attendance, earnest in his application to study, and kind, courteous and dignified in his deportment to teachers and associate students.

Visitors.—Visitors are always welcome—and especially the parents and friends of students and the friends of education. The best time, usually, to see the working of the different departments, is from 10 to 12 A. M., but there is no hour during the daily exercises when visitors will not receive proper attention.

THE PACIFIC BUSINESS COLLEGE REVIEW,

Published by the College, contains full particulars regarding the Courses of Instruction, Expenses etc; also a large amount of interesting reading. It may be had, free of charge, either at the College office, 320 Post Street, opposite Union Square, or by addressing

PACIFIC BUSINESS COLLEGE,

SAN FRANCISCO, CAL.

PACIFIC BUSINESS COLLEGE

320 POST STREET,

RED MEN'S BUILDING, OPP. UNION SQUARE, SAN FRANCISCO.

This school is justly ranked by the public as the best Commercial College on the Pacific Coast. It affords excellent facilities in the following courses of instruction:

THE BUSINESS COURSE.

This is designed to prepare students for COMMERCIAL and BUSINESS PURSUITS. It embraces the following studies:

BOOK-KEEPING BY BOTH SINGLE AND DOUBLE ENTRY, as applied to all kinds of business, such as Wholesale and Retail Merchandising, Farming, Manufacturing, Mining, Brokerage and Exchange, Importing, Jobbing, Commission, Railroading, Banking, etc.

COMMERCIAL CALCULATIONS—Embracing the most rapid and abbreviated methods of calculation in Percentage, Profit and Loss, Commission, Interest and Discount, Domestic and Foreign Exchange, General Average, Equation of Payments, Interest Accounts, Averaging Accounts, Partnership Settlements, etc.

PENMANSHIP—Including careful instruction in the finger, muscular, whole-arm and combined movements, as applied to plain business writing, ledger headings, etc.

CORRESPONDENCE—Embracing instruction in composition of business letters, use of capitals, rules of punctuation, folding, addressing, etc.

BUSINESS FORMS—Such as Notes, Drafts, Bills of Exchange, Accounts Current, Account Sales, Articles of Co-partnership, Deeds, Leases, etc.

ACTUAL BUSINESS PRACTICE—In Wholesale and Retail Merchandising, Importing and Jobbing, Commission and Forwarding, Banking, etc., etc.

COMMERCIAL LAW—Relating to Negotiable Paper, Contracts, Partnerships, etc.

BUSINESS CUSTOMS AND HABITS—Lectures and practical instruction on the habitudes and customs of business, etc.

LECTURES AND ORAL INSTRUCTION—On Commercial Geography, Political Economy, and General Business subjects.

RATES OF TUITION—Payable in Advance.

SCHOLARSHIP for the full Business Course as above explained, time unlimited, - $70

PARTIAL COURSE.

Three Months, Day Sessions, - -	$50	Three Months, Evening Sessions, -	$25
One Month, " " - -	20	One Month, " " -	10

ACADEMICAL COURSE.

This department is designed for imparting to persons of any age thorough instruction in the ordinary English branches, such as Spelling, Reading, Writing, Arithmetic, Grammar, Composition, Letter Writing, History, etc., and the general Mathematical branches, such as higher Arithmetic, Algebra, Geometry, Menstruation, Surveying, Civil Engineering, Navigation, etc.

Rates of Tuition: One Month, $12; Three Months, $30.

COMBINED COURSE.

It is frequently desirable for students pursuing the regular Business Course to combine with it Spelling and English Grammar, or some other studies of the Academical Course. Where the studies of the two courses are combined, the charge per term of six months, payable in advance, is $75.

SPECIAL BRANCHES.

Persons desiring to study only some particular branch, as Business or Ornamental Penmanship, Arithmetic, etc., can enter the College for such branch upon very reasonable terms.

TELEGRAPHIC DEPARTMENT.

The course in this department includes everything that will make students proficient in the Art of Telegraphy—sound and paper operating, setting-up of instruments, management of batteries, use of switches and ground wires, etc. The facilities are such as will enable ladies and gentlemen to learn Telegraphy, practically and thoroughly, in the shortest possible time.

Rates of Tuition: Three Months, $25; Six months, $40.

Students of the Commercial or Academical Departments will be charged the following rates:
Three months, $15; Six months, $25.

NO VACATIONS. DAY AND EVENING SESSIONS DURING THE ENTIRE YEAR.

Sutter Creek

Is a prosperous and thriving town of 1,500 inhabitants, centrally situated, and is distant from San Francisco and Sacramento 143 and 45 miles respectively; being connected by railroad and stage. Two forty-stamp mills are in active operation, and agriculture is extensively carried on. The water is splendid, while the health is excellent. It is the largest town in the county. It has a graded school, where educators of decided ability and reputation are employed. The society is made up of an intelligent class of people, whose public spirit is commendable. Its chief support is derived from the mining interest.

Volcano.

The town is twelve miles from Jackson, the county seat, and has a population of 600 souls. The scenery in the immediate vicinity is picturesque, the water is excellent, and the school is in a prosperous condition. The society is made up of representatives of every nation, the Italian element predominating. Placer, hydraulic and quartz mining is very extensively engaged in, and the precious ore that lies dormant in the solemn but majestic hills which abound in rich profusion in the neighborhood is believed to exist in paying quantities. The residents are sanguine of a prosperous future, and are consequently in a contented frame of mind. There is but one hotel in the place, though an enterprising and experienced person could realize a handsome profit in the investment should he wish to engage in the business there. Indeed, the demands for another house are so great that the citizens have offered to contribute to that end.

EL DORADO COUNTY,

ORGANIZED in 1850. One of the very first after the Territorial maiden bloomed into State womanhood, whose virgin qualities she has maintained with most pleasing results in spite of evil report, while the dawning future is full of greater promise than the dead past has ever thrust upon her. It is bounded on the north by Placer, on the east by the State of Nevada and Alpine county, on the south by Amador county, and on the west by Sacramento and Placer counties. The greatest, indeed the only, resource on which she depends for support is mining, though the cultivation of grain, fruit growing and stock raising are pursuits that are assuming important proportions, and the period is not considered very remote when they shall overshadow that which made her and the State famous for all time. Nowhere within the limits of the proud, prosperous and happy commonwealth can there be found scenery that is more charming, more plethoric of interest than that of this, her favored county. Its grandeur is unsurpassed by any the world has ever seen, made so by a commingling of lovely forests, sublime mountains, swift running streams, deep and rugged cañons, grim and nude peaks and beautiful valleys. On the 1st of January, 1848, at what is now known as Coloma, gold was accidently discovered by a hardy adventurer whose name will die only with that of California and her history, the news of which spread throughout the world like wildfire, and through the contagion which the prospect of acquiring wealth creates, an immigration from every quarter of the globe of brave men such as the world has never before nor since witnessed, was begun. The county previous to the completion of the Central Pacific railroad was the great thoroughfare of travel and immigration across the Sierras, to which can be attributed the presence of so many splendid turnpikes; but since the enterprise which linked the Atlantic with the Pacific was inaugurated, the stage coaches, freight wagons and emigrant trains are no longer familiar sights in that section. As fine water as can be obtained anywhere in the world flows perpetually in abundance through all the streams, whose source is the peaks of the mountains, which are covered at all seasons of the year with an inexhaustible coat of snow. Several extensive and wealthy water companies have and are constructing canals in every section of the county for the purpose of supplying the miners and farmers with water, vast amounts of which will be necessary for the successful operation of mines and cul-

tivation of farms and gardens that are being opened to that end. The question has been mooted, the subject has been discussed by practical men, estimates have been made, and the work in laying the pipe from a mammoth reservoir through which the water is to be conveyed to Sacramento, Vallejo, Oakland and San Francisco will probably be begun and consummated before the lapse of a very great while. The pipe will be 160 miles in length and the water will be taken from the sparkling Rubicon, one of the principal forks the American river. The pure, bracing atmosphere is a source of great comfort and health, the climate is genial, and the people are noted for their hospitality and kindness. The lands are reasonably cheap, the mountain ranges are excellent, the timber is splendid and waits to be utilized for any purpose. The schools are good, the churches are of no mean order, and the county therefore offers superior attractions to those who feel that they would be better pleased in the country than in the city.

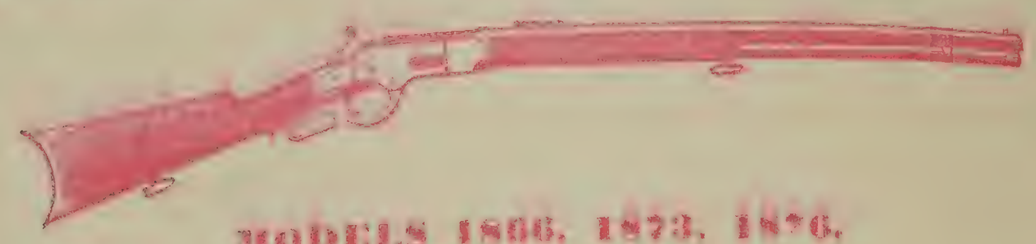
Winchester Repeating Arms



MODELS 1866, 1873, 1876.

The San Francisco Agency is now fully supplied with all the kinds and styles of Arms manufactured by the Winchester Repeating Arms Company.

Cartridges by the million manufactured by the W. R. A. Co for all kinds of Rifles and Pistols—both rim and central fire—warranted the best in the market.

Brass and paper shot-gun shells, all sizes, equal to any in the world.

Reloading Tools, Primers, parts of Arms and Primed Metallic Cartridge Shells.

The W. R. A. Co make Cartridges for their own Arms, and all persons are cautioned against using other brands, manufactured by outside companies who have no interest in their arms or their efficiency in them. From not following this suggestion, numerous accidents have occurred to their Rifles by firing Cartridges with imperfect heads made by such companies.

Also, Agent

DUPONT'S GUN-POWDER.

PLACER COUNTY.

Organized in 1851. It is bounded on the north by Nevada, on the east by the State of Nevada, on the south and southeast by El Dorado and Sacramento, and on the west and northwest by Yuba, Sutter and Nevada counties; having an area of 1,386 square miles and a population of about 10,000. No county in the State has richer mines, and it was only until quite recently that this interest was looked to as the sole means of support; but at present she can boast of a representation in as many pursuits as her resources are varied. The mountains, as well as being rich in mineral and pastoral wealth, are covered with an illimitable growth of fine timber which can easily be converted into marketable lumber, thus offering superior inducements to manufacturers of building material of that character. The fact also that the mountains of this county are covered with a luxuriant growth of nutritious grasses nearly the whole of the year and filled with living streams of pure water, affording excellent pasturage for thousands of head of stock, is an advantage to dairymen and stock-raisers that should merit their consideration. Another feature of importance which this favored section possesses is its peculiar adaptability to the culture of fruit, vegetables and berries, an industry that is fast approaching the front rank of commercial interests. The facilities for rapid transportation are rendered superior by the fact that the C. P. Railroad runs through its entire length, while its wagon roads are always kept in excellent condition. The towns of the county are generally, substantially and neatly built, and the residents are hospitable and enterprising, who are ever ready, with open arms, to receive an addition to their population of settlers who are worthy their confidence and esteem. The grandeur of the scenery which nature has lavished upon her defies description, and in this respect, none of her sister counties can boast of superiority. She is also honored by the presence within her borders of the famous and beautiful sheet of water which bears the pleasing name of Lake Tahoe, about whose fathomless depths and mysterious characteristics so much has been recorded in tales of romance and chapters of history, and on whose lovely shores so many hours of "elegant leisure" are spent in solemn meditation and "frolicsome merriment" by the student of nature and those who believe in enjoying the pleasures of the hour. To those who are admirers of the sports where the gun and rod are brought into requisition, quail, deer and the "speckled beauties" offer en-

ticement that cannot remain unnoticed. The atmosphere of the county is so pure and light, so free from the taint of malaria and so stimulating to the physical system that many invalids, seeking relief from the ravages of disease, have been drawn hither, in many of whom there are living examples of remarkable cures, especially of bronchial and pulmonary complaints.

Auburn,

Is on the line of the C. P. Railroad, 36 miles from Sacramento, and the county seat of Placer county. On every side of this pretty town the foothills of the Sierra Nevadas rise in majestic splendor, while far away to the eastward from some of the elevations the snow-capped peaks of the summit intrude themselves upon the vision of the spectator, within whom, if it be his first view, there is created an uncontrollable feeling of poetic sentiment which finds escape only through dissipated expression. The hills surrounding the town are teeming with mineral wealth, and the mining claims, with but few exceptions, are being successfully worked. The business portion of the place is not very regularly laid out, though the streets are wide enough for all practical purposes, and inasmuch as the material used in the construction of its buildings is chiefly brick and stone, it may be termed a substantial place in more than one sense. It has six hotels, one of which—the American—under the efficient management of its genial host, Mr. Frank Tull, is fast acquiring deserved popularity; three weekly newspapers, the *Placer Herald*, the *Placer Argus*, and the *Advance*, the latter having been recently established and an ardent supporter of the Greenback party, and the former representing the other "wings" of the political bird, whose editorials and local items sparkle with wit, humor and sarcasm. There are also

two stage lines which carry mail and passengers daily to the interior places of the county. The schools are of a splendid character and the society is made up of an intelligent, moral people. The Court House is a plain but neat two-story frame building; the county officers are efficient and honorable, while the bar is represented by an array of legal talent of whom any community should be proud to boast. The population is estimated at 1,500. The secret orders are all in a flourishing condition, the churches are well attended and the sanitary condition most excellent. It is fast becoming noted as a place of resort for invalids.

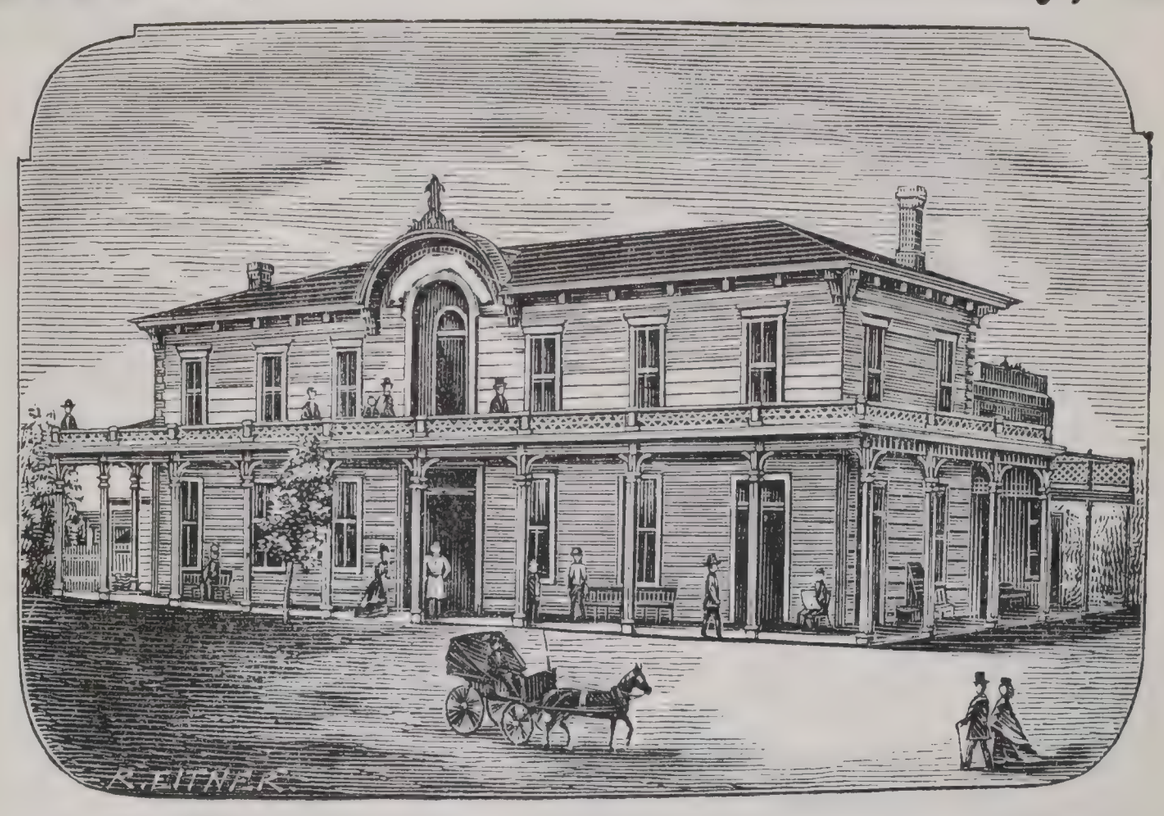
Borland's Hotel,

(Opposite the C. P. R. R. Depot.)

AUBURN, - - - Placer County, Cal.



JAMES BORLAND, - - Proprietor.

Pains have been taken and means unsparingly employed and the object to make this house second to none in Auburn has been attained. The fact that it is more convenient to the Depot, and that the business done is greater by two-fold than that of any other house in the place, is sufficient recommendation for the most fastidious. The table and beds are surpassed by none outside of San Francisco, while every comfort can be had.

SATISFACTION in every PARTICULAR GUARANTEED.

Stages Leave this Hotel for all Points Connected with Auburn.

GUESTS MADE COMFORTABLE AND HOME-LIKE.

H. WACHHORST sells Watches cheaper than any house on the Coast.

H. H. PIERSON, DENTIST, NO. 111 J STREET, SACRAMENTO. Surgical and Mechanical Dentistry.

BUTCHER RANCH HOUSE,
(Ten miles from Auburn.)
BUTCHER RANCH, Placer Co.,
T. P. MARTIN, Proprietor.
Good accommodations for travelers. Bar connected with the House.
ALSO, POSTMASTER AND DEALER IN GENERAL MERCHANDISE.

STONY HILL TURNPIKE,
Placer County, California.
(Postoffice Butcher Ranch.)
JOHN F. ENGELL, Proprietor.
The road is in excellent order during the Summer season, and is a splendid drive of 3 miles.

Bridges.

The wire suspension bridge spanning the main North Fork of the American river, owned by the Georgetown, Cave Valley and Auburn Turnpike Company, is a safe and magnificent piece of workmanship. The bridge which spans the North Fork of the American river, three miles north of Auburn, owned by the Auburn and Yankee Jim Turnpike Company, is substantially built, and the owners deserve credit for the pains they have shown for the safety of the people. The beautiful wire suspension bridge, owned by Chas. Rice, Esq., spanning the North Fork of the American river, near Colfax, is a perfect gem in its way, and the plan of its construction reflects great credit on its owner's architectural ability. The scenery in the immediate vicinity is perfectly grand, pronounced by Bayard Taylor to be inferior to none in the world.

Cisco,

P. O., Fifty-six miles northeast from Auburn, of the C. P. R. R., near the summit of the Sierra Nevada at an elevation of 5,910 feet. The depot for supplies to adjacent mining districts.

Colfax,

Nestling in the foothills of the Sierra Nevada mountains, 36 miles from their base, and at the junction of the Nevada County Narrow Guage and C. P. Railroads, in the very midst of the grandest scenery of the famous range, where the earth surrenders to the ingenuity of man her hidden treasures, is the substantially-built place which takes its name from an ex-Vice-President of the United States, who delivered a speech from a car platform at this point in 1869. It presents a very neat appearance, its business houses are orderly and tastily arranged, its residents are hospitably disposed, progressive and enterprising. It has a population, approximately made, of 1,000, and its advantages as a mining town are of a superior character, while it is not saying too much when asserting that its future is very bright. Inasmuch as its altitude is 2,422 feet above the sea level, and as the supply of pure and cool water is inexhaustible, an expression at our hands regarding its superiority over many other localities as a place of residence is rendered unnecessary and might be deemed superfluous. Its public buildings, including churches and school houses, are neat and comfortable, and offer sufficient evidence of the moral standing of its people. The Exchange Hotel is emphatically the leading hostelry of the place, whose establishment dates from the early history of the town, with which it has kept pace in improvement. Asa Plank, Esq., a gentleman of experience and intelligence, is the proprietor.

Dutch Flat,

A place of 1,500 inhabitants, on the C. P. Railroad, 33 miles northeast of Auburn. The place a few years ago became famous through the possession of its extensive gravel mines, which gave employment to a great number of men, and which ranked foremost among the best placer mines in the State. It has two hotels, three churches, one weekly newspaper, the *Forum*, and a good school, as well as several neat and substantially built business houses and private residences. Towle Bros. & Co., who have become noted as the most extensive manufacturers of lumber in that section, have their headquarters here. Although the place is feeling the depression which has been so generally felt throughout the country, the people congratulate themselves on the belief that a prosperous future is dawning. A great many remarkable cures of asthma have been effected by a short residence in this locality. The altitude is in the neighborhood of 3,000 feet above the sea level. Its society is good.

Forest Hill,

A place of some importance, 22 miles northeast of Auburn, on the Auburn and Michigan Bluff stage road. It has a population of 700 souls, who are disposed to be public spirited, and show an appreciation of their advantages by sustaining the reputation the town acquired in early times as a place of neat and substantial appearance. The local pride felt in the place is truly commendable, and it augurs well for a bright future. The mining claims are the main source to which the inhabitants look for support, though viniculture and fruit-growing are somewhat extensively engaged in, while cereals of every character yield abundantly. The society is of a high standard, intelligence and refined culture proving the rule rather than the exception, as shown in the manners and customs. The sanitary condition of the place is rendered unassailable by the fact that the water is superior and the atmosphere is entirely free from

Forest Hill,

A place of some importance, 22 miles northeast of Auburn, on the Auburn and Michigan Bluff stage road. It has a population of 700 souls, who are disposed to be public spirited, and show an appreciation of their advantages by sustaining the reputation the town acquired in early times as a place of neat and substantial appearance. The local pride felt in the place is truly commendable, and it augurs well for a bright future. The mining claims are the main source to which the inhabitants look for support, though viniculture and fruit-growing are somewhat extensively engaged in, while cereals of every character yield abundantly. The society is of a high standard, intelligence and refined culture proving the rule rather than the exception, as shown in the manners and customs. The sanitary condition of the place is rendered unassailable by the fact that the water is superior and the atmosphere is entirely free from malaria. The scenery surrounding the place is very fine, and the timbered hills in the immediate vicinity at some day not far distant will prove a great source of revenue to enterprising, energetic men who can foresee the result of an investment in that direction. There is a good school building, two churches, several stores and two hotels, the Forest House being the most popular.

A large assortment of English Memorial Cards direct from England, at A. & E. RIVETT'S, 214 & 216 M St., Sac.

Iowa Hill,

A lively mining town of 400 inhabitants, 63 miles north of Sacramento on the Colfax and Iowa Hill stage road. Its altitude is about 3,000 feet above the sea level, the scenery in every direction is perfectly beautiful, the water is superior and the sanitary condition is excellent. For persons afflicted with pulmonary or bronchial complaints this is a most desirable locality, since it is known that remarkable cures of asthma have been affected. The hills in the immediate vicinity are timbered with a heavy growth of yellow and spruce

RED HOUSE TRADE UNION. ONE PRICE. 108-206 and 208 J Street, Sacramento. See them.

Huntington, Hopkins & Co., 54 K St., Dealers in

pine and fir, though facilities for rapid transportation to points on the railroad are made inferior by the presence of several steep places on the roads. By an expenditure of some energy and the investment of some capital, however, a good wagon road could be opened to Colfax, on the C P Railroad, 7 miles away. The inhabitants are intelligent and moral, and believe in the education of their youth. The extensive gravel mines, with but very few exceptions, are producing well and give employment to two hundred men, while the water privileges are decidedly good. There is as fine a school house here as there is in the county, constructed with an eye to the convenience and comfort of the pupils, two churches, several stores and three hotels, the Star taking the lead, whose proprietor, Mr. John Young, is emphatically the "right man in the right place." The hillsides afford excellent facilities for fruit-growing and the culture of grapes, while stock raising could be made a profitable pursuit.

Michigan Bluff,

A PLACE of 300 inhabitants, thirty miles northeast of Auburn, the county seat, and one of the termini of Powell's stage line. In its early history the place was considered one of the loveliest mining camps in the State, and claims the honor of having numbered among its citizens Ex-Governor Stanford, who was the proprietor of a soret where general merchandise was sold in its palmy days. The scenery which is held up by the hand of nature on either side of the town is incomparable, and a description of it could hardly do it justice. Its lofty mountains, rich in mineral and timber, form a background to one of the finest panoramic views in the county. Its schools are good and its secret orders strong in point of numbers. The mining claims are nearly all paying well, especially the famous Hidden Treasure mine. The citizens as a rule are industrious and possessed with average intelligence. To parties who wish to "hold

communion with nature's invisible forms" for a few weeks, we know of no place more desirable than this. The principal hotel is the Phœnix, whose proprietor's hospitality and good nature are too well known to need mention at our hands. For those who become guests of this house we can bespeak a pleasant time. The altitude is 3,456 feet above the sea level, the air is pure and light, the water is very fine and the general health most excellent.

Newcastle,

Near the base of the Sierra Nevada mountains, on the C. P. Railroad, thirty-one miles east of Sacramento. The scenery in the immediate vicinity is picturesque, the society of the place of a very high order, and the sanitary condition is excellent. It has many attractive features to the tourist, who can find every convenience for the promotion of pleasure at its principal hotel, whose gentlemanly proprietor, Mr. O. W. Wilson, is ever ready to impart information of such a character as would tend to enlighten and benefit. Fruit growing is prominent among the industrial enterprises, while mining and viniculture are carried on somewhat extensively. The mountain ranges possess a luxuriant growth of nutritious grasses, and afford, therefore, excellent facilities for the pursuit of dairying. In mid Summer mercury indicates a very high temperature, though a case of sun stroke is yet to be chronicled in its history. The nights are always delightfully cool, and the presence of the mosquito is unknown. There are five secret orders in a flourishing condition, whose membership ranges from 40 to 60. The lodge room is a model of architectural taste. The New Castle Fruit Growers' Shipping and Preserving Association have, and operate, an extensive fruit-drying establishment, whose capacity is about ten tons per day. The amount of fruit shipped from this point *via* C. P. R. R. for the year ending in October, 1878, reached the enormous aggregate of 1,180,000 pounds.

Ophir,

Situated in a beautiful basin in the foothills of the Sierra Nevada mountains, about three miles west of Auburn, the county seat. Its support is derived principally from the mining interest. Its population is estimated at 400. The Ophir Hotel, C. H. Leavitt, proprietor, is the prominent house of the place.

Rocklin,

On the C. P. Railroad, 23 miles northwest of Sacramento. The location is very pretty, being at the base of the Sierras, but a lack of enterprise and public spirit in its residents shows a deplorable want of appreciation of nature's gifts. With but very few exceptions, the place might be termed a community of living dead people. Mr. G. W. McCreedy, manager Trott's Hotel, the best in the place, understands his business and can be relied on. There is an extensive stone quarry near the town which gives employment to quite a number of men about one-half the year.

YOLO COUNTY.

Organized in 1850. Among the first after the adoption of the Constitution which formed the basis of the State's superstructure. It is bounded on the north by Colusa, on the east by Sutter and Sacramento, on the south by Solano, and on the west by Lake and Napa counties. The resources of the county are almost exclusively agricultural. The soil throughout its confines is a rich sandy loam, underlaid with a very productive sub-soil of a calcareous nature. The farms are all well improved, whose proprietors exhibit a taste for comfort and an appreciation of pleasing impression by adorning their homes that is truly a happy commentary on their high order of intellect. This spirit of liberality and disposition to be grateful to "nature and her God" is a better index to the character of the people than is found in a mere bank account. The beautiful towns show that they are inhabited by people of energy, enterprise and morality; that a public spirit is made manifest for the promotion of mutual happiness, not through selfish aims, and that their welfare is felt at heart. Fruit-growing is a very important industry of the county, while the wool clipped from her numerous flocks of sheep supplies a very great demand for that article. Thousands of boxes of fine raisins are packed and shipped annually, while enormous shipments of cereals give employment to the several railroads which penetrate its interior. The land along the Sacaramento river is subject to overflow, which, when reclaimed, will be very productive and a great source of revenue to the county. The county's area is 1,150 square miles and its population is perhaps 15,000.

Davisville,

Is on the line of the Cal Pacific Railroad, fourteen miles west of Sacramento, where the Knights' Landing branch of the above named road intersects it. The richness of the soil contiguous to the place is fully attested by an abundant harvest annually of cereals, fruits and vegetables. The land is undulating, and presents, in the spring-time, when it riots in a wilderness of green, a most charming landscape. The society of the place is above the average, so far as morality and refined culture are concerned. The business men are enterprising and keen-witted, and the town justly claims a "full compliment" of handsome ladies.

There are three pretty churches, which represent the Catholic, Methodist and Presbyterian denominations, several nice residences and two hotels—the Gafford House, conducted on the European plan, being a most desirable haven for the weary traveller. Its kind and generous-hearted host, J W Gafford Esq., never fails to inspire feelings of confidence, in his honesty of purpose in the breasts of his guests.

The natural advantages of the place warrant a steady increase in its size. The farmers, as a class, are industrious and "well off" in the vicinity, and their beautiful fields of grain, regularly laid off orchards and well constructed homes show a spirit that deserves to be applauded. It has a population of 400 people.

Woodland

Is the county seat, and distant from Sacramento by rail, 22 miles, having a population of nearly 4,000. The place derives its name from a beautiful grove of oaks that once occupied the town site, which have nearly all been felled by the merciless hand of the woodman, who would not spare them. The streets are generally very well shaded by nearly every variety of shade trees of uniform growth, are wide and smooth, and run at right angles. The residences of the wealthy classes are models of architectural beauty, and are supplied with all the modern conveniences, while the elegant yards are rich in the possession of shrubbery, trees and plants of every description. It is very evident that an emulative pride is felt by the citizens in their place, for every opportunity to beautify and adorn their private homes, seems to have been taken advantage of. Indeed, a stranger after an extended stroll through the handsome little city, would conclude that there was existing a friendly rivalry for the distinction of having the most attractive and most comfortable home. The growth of the place has been steady, and in keeping with the development of the county, whose soil, for agricultural and horticultural purposes, taken on the whole, is inferior to none in the State. The business and public buildings will compare favorably with those of places whose pretensions are much greater, the former being constructed of fire-proof material, and finished with an eye to convenience and neatness. They are all well stocked with goods of every character, whose arrangement shows the handling and good taste which is acquired only through hard-earned experience, where sturdy discipline reigned supreme. The Court House and jail, combined, is a two-story brick, situated on a square, which is most tastefully laid out, and the presence of so many beautiful and fragrant flowers and shrubbery of all kinds, speaks volumes in praise of the character of the people. There are several substantial and well-designed churches, all having creditable congregations; an institute of education, the Hesperian College, which is in the first rank among the schools of the Coast; a good theatre, a beautiful bank, and several hotels, chief among which is the Capital, which has acquired its deserved popularity under the management of its clever proprietor, Mr. John Tackney. There are three newspapers, two weeklies and one daily, whose circulation is confined principally to the boundaries of the county.

We know of no place where a happier, more hospitable, more moral people are found, where a greater appreciation of life is shown. The town's support is derived from the agricultural interest, whose yearly exportation of enormous amounts of grain, vegetables and fruit, is sufficient to warrant its perma-

San Francisco Department.

The Mutual Life Insurance Company
OF NEW YORK.

F. S. WINSTON.....*President*
R. A. McCURDY.....*Vice-President*

Assets, January 1st 1879 - - $87,127,074.52

☞ This Company presents, to those needing Insurance, a security unequalled by any similar institution. It has never disputed a claim which was shown to be just and right, and has carefully sought and practiced the most equitable system for the division of its surplus, and for discriminating between the varied interests of its many members

DISTINCTIVE FEATURES.

1. It is a purely Mutual Company. All the profits are divided among the policy holders, there being no stockholders to control the Company or to take any portion of the surplus.

2. It has no premium notes; no loans upon collaterals; no railroad stock or bonds, nor speculative property in any form. All its investments are, by its charter, carefully restricted to the kinds acknowledged to be the safest known.

3. The greatest care is exercised in the selection of lives, and none but sound, healthy persons, with good family history, are accepted.

4. Every proper effort is made to reduce the cost of Insurance to the policy holder. The average return of surplus to its members, by the Mutual Life Insurance Company of New York, *has been greater than that of any other Company in the world.* Hence the net annual outlay, for a given amount of Insurance, is less in this Company than in any other.

5. It issues no Tontine; Trust Fund or so-called Mutual Investment Policies, but sells legitimate Insurance at lower rates than any other Mutual Company.

ITEMS OF INTEREST.

The *FIRST PREMIUM* received by this Company was $108.50 on Policy No. 1. This was *FEBRUARY 1, 1843.*

On the *FIRST OF JANUARY 1879,* the Company had been in existence thirty-five years and eleven months.

During that time it has issued *196,000* Policies, for over *SIX HUNDRED AND SEVENTY-THREE MILLIONS OF DOLLARS* of Insurance. The following is a statement of the aggregate transactions:

RECEIPTS:	Premiums		$193 678,708 69
	Interest		48,047,100 09
			$241,725,808 78
	Total Received.		
DISBURSEMENTS:	Death Claims, Annuities and Endowments.	$48,240,660 19	
	Dividends	48,992,221 20	
	Surrenders	38,287,011 92	
		$135,519,893 31	
TOTAL: RETURNED TO POLICY-HOLDERS			$157,551,732 36
	For Commissions to Agent, Expenses, Taxes and Contingent Guarantee account.	$22.031,839 05	84,174,076 42
	Total Disbursements		
REMAINDER: which is either invested or in bank			

Above are liabilities computed by the most exacting standard it has a surplus fund exceeding Four and a Quarter Millions of Dollars, and computed by the standard of the State of New York its surplus January 1st 1879 was $11,305,553.30.

H. H. PIERSON, DENTIST. NO. 111 J STREET. SACRAMENTO. Surgical and Mechanical Dentistry.

San Francisco Department.

Since the year 1849, this Company has paid on the Pacific coast seven hundred and thirty-six claims amounting to two millions eight hundred and sixty-five thousand dollars ($2,865,000.00) The primary object of Life Insurance is to provide for surviving widows, orphans, or other dependents of deceased Policy-holders. The foregoing shows conclusively that this Company is fully accomplishing the legitimate purpose for which it was founded.

Those who desire SAFE Life Insurance are invited to apply at the office of the Company, **214 Sansome Street,** San Francisco, or to any of its Local Agents on the Pacific Coast.

By moderate payment now, they may make sure provision for themselves in advanced life, or for those dependent upon them after death, whenever that may occur.

DOES IT PAY TO INSURE?

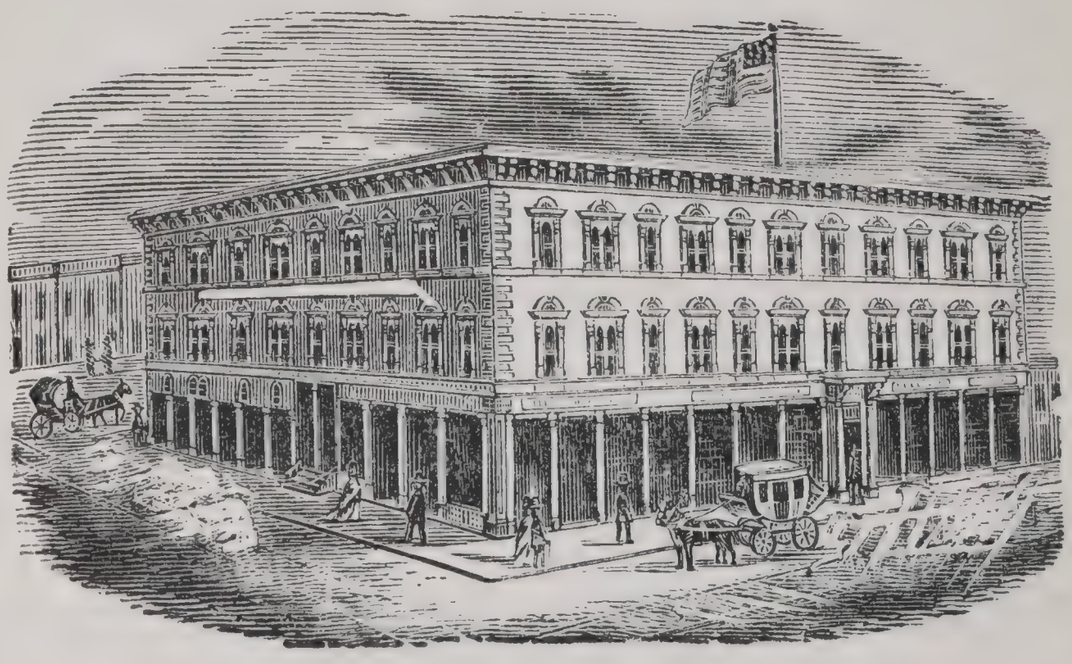
Capital Hotel,

WOODLAND, Yolo County,



JOHN TACKNEY, - - PROPRIETOR,

MATHEW TACKNEY, Clerk.

—o—

Is the most commodious, the most airy, and the most elegantly appointed house in the city. Its location is more convenient to the business quarter, and for that reason is the most suitable for the traveling public. An experience of several years in the business warrants the statement that better satisfaction can be had at this hotel than at any other in the place.

—o—

THE TACKNEY HOUSE,

JOHN TACKNEY, Proprietor,

Three blocks away, has been thoroughly renovated, and is removed from the business portion of the town, therefore, persons who wish quiet and pleasant quarters can be furnished with rooms and board for any length of time at reasonable rates.

Rarest Selections of Jewelry, Watches, etc., in the State, at H. WACHHORST'S, 79 J Street., Sac.

Alum Rock Springs

Good Hotel Accommodations—Cottages, beautiful Grounds, lovely Climate, pure and bracing Atmosphere, in fact everything conducive to the enjoyment and pleasure of Guests.

These Springs are situated six miles east of San Jose. The finest drive in the State. Hot, Cold and Tepid Sulphur Baths.

Forty different kinds of Water, each possessed of different medicinal properties, among which are Soda, Sulphur, Magnesia, Iron, and a multiplicity of other kinds.

The finest Springs in the State. Rheumatism, Neuralgia, Skin Diseases, and many others, cured by the use of the Baths and Waters.

Fine Scenery. They are situated on Penitencia Creek (Penitencia Canyon), a beautiful, clear stream, abounding with Mountain Trout. The pleasantest resort on the Pacific Coast. It is under the supervision of the well known caterer to the public,

M. LOVE.

Fine Bar attached, supplied with the best WINES, LIQUORS and CIGARS. Stage accommodation in connection with Trains.

H. H. PIERSON. DENTIST. NO. 111 J ST. Nitrous Oxide or Laughing Gas for Painless Extraction of Teeth.

A. & E. RIVETT'S is the place to get your Job Printing done neatly and correctly, 214 and 216 M Street, Sac.

TRADE MARK.

Our Motto—

Merit will Win.

We would respectfully solicit the attention of Dealers to our

CELEBRATED

California Yeast Cake,

Ours being the only Factory for the manufacture of this class of goods at present on the coast. Hence, you will find the CALIFORNIA YEAST CAKE the only fresh Yeast substance on the Market. And with this class of goods,

Its MERIT lies in its FRESHNESS.

For Light Bread, Light Biscuits, Rusk, Hot Rolls, Hot Cake, Doughnuts; in fact this article CANNOT BE EXCELLED, if used in any capacity where GOOD YEAST is required.

With the same propriety we speak again. We are manufacturing a full assortement of

Flavoring Extracts,

Prepared with the greatest care and native purity.

We have in our office no end of Testimonials to the merit of our goods. Please give our goods a trial. We guarantee satisfaction.

Iron and Steel Wire Rope

FOR MINING AND HOISTING PURPOSES,

AND

WIRE OF ALL KINDS.

PATENT ENDLESS ROPEWAY

(Wire Tramway) for transporting Ores, etc., over mountainous places.

Mining Companies, Ferrymen and Shipmasters

Are informed that Wire Rope can be furnished them considerably under the cost of Hemp or Manilla, of equal strength. Wire Rope does not stretch or shrink by change of weather. It weighs 40 per cent. less than Hemp, is less than one-half the diameter; is easily spliced under all circumstances; is as pliable for equal strength; and is from four to five times as durable as the best Hemp or Manilla Rope.

For Hoisting from Deep Mines, the Economy of its Application is Immense.

NOTE.—*STEEL WIRE ROPE* weighs about six-tenths of Iron Rope, or one third of Hemp of equal strength. Its extreme lightness saves largely in freight to remote places, and its great durability recommends it for hoisting purposes, etc.

ENDLESS WIRE ROPEWAY.

(Wire Tramway), Secured by Numerous Patents.

By means of the Ropeway, ores, rock and other material can be transported over mountainous and difficult places, where it would be impossible or exceedingly expensive to build a road. It can deliver from five to fifty tons per hour, according to capacity, and being carried upon posts, above snow and other obstructions, can be used when other modes of transportation would be impossible.

NEW EDITION.

—o—

Webster's Unabridged.

1928 PAGES. 3000 ENGRAVINGS.

NOW ADDED

A SUPPLEMENT OF OVER

4600 NEW WORDS AND MEANINGS.

These include such as have come into use during the past fifteen years—many of which have never found their place in any English Dictionary before.

AND A

NEW BIOGRAPHICAL DICTIONARY

OF OVER 9700 NAMES.

Of Noteworthy Persons, Ancient and Modern, (including many now living,) giving the Name, Pronunciation, Nationality, Profession and Date of each.

☞ In meeting names in reading, how frequently the thought is in mind, "Who was he? Where was he? What was he? and When was he?" This **NEW BIOGRAPHICAL DICTIONARY** in Webster, just answers these questions in brief.

PICTORIAL DEFINITIONS.

For the great aid rendered by PICTURES in defining, look at the following words in Webster, each defining by illustration the number of Words and Terms named:

Beef, page 129.....15	**Eye**, page 588.....11	**Ravelin**, page 1089.....14
Boiler, page 148.....17	**Horse**, page 639.....45	**Ships**, pages 1164, 1219.....110
Castle, page 203.....24	**Moldings**, page 851.....10	**Steam Engine**, page 1292.....20
Column, page 253.....26	**Phrenology**, page 982.....37	**Timbers**, page 1385.....14

Making 313 Words and Terms defined by the Pictures under the above 12 Words in Webster's Unabridged, far better than could be done by any description.

Is there any better aid than Webster to help a family to become intelligent?

Warmly Endorsed by

GEO. BANCROFT,	RUFUS CHOATE,	JOHN G. WHITTIER,
J. L. MOTLEY,	B. H. SMART,	JOHN G. SAXE,
FITZ-GREENE HALLECK,	W. H. PRESCOTT,	DANIEL WEBSTER,
N. P. WILLIS,	GEORGE P. MARSH,	EZRA ABBOT,

DAILY EXAMINER

— AND —

WEEKLY EXAMINER.

ESTABLISHED IN 1865.

Chief Organ of the Democratic Party of California and the Pacific Coast.

THE DAILY

Is the Official Paper of the City and County of San Francisco, and contains the

LATEST TELEGRAPHIC NEWS.

THE WEEKLY EXAMINER

Contains Fifty-six Columns of carefully selected reading matter, and is enriched with the soundest essays on the Political and General Questions of the Day, by the ablest Writers oi the coast, treated in a manner to render the EXAMINER valuable for present reading and future reference.

It is prepared expressly for the Farmer, Miner and Interior Merchant, and will be found invaluable for its carefully compiled, elaborate and reliable MARKET REPORTS.

It has the largest circulation of any Weekly published west of the Rocky Mountains. As a Family Newspaper it has no superior in the State, and no home should be without it.

It may be read with profit and pleasure around the domestic hearth, especial care being taken that it shall contain nothing that can offend morality.

The DAILY EXAMINER is published every evening (Sundays excepted) on the following terms:

For One Year	POSTAGE OR EXPRESS PREPAID.	$7 50
For Six Months		4 00
For Three Months		2 00

THE DAILY is delivered to City Subscribers at fifteen cents per Week, payable to Carriers. Single Copies, Five Cents.

THE WEEKLY EXAMINER is published on Thursday morning, in quarto form, and contains FIFTY-SIX COLUMNS of reading matter, carefully selected from the Daily Edition. It is furnished by Mail to Subscribers:

For One Year	POSTAGE OR EXPRESS PREPAID.	$3 00
For Six Months		1 50
For Three Months		1 00

TERMS TO CLUBS:

10 and under 20 Copies (each Copy)	$2 75
20 Copies and upwards (each Copy)	2 50

Papers to Clubs in wrappers to each Subscriber.

☞ Subscriptions payable in advance, by postal order, check or express.

FARMERS, ORGANIZE! and subscribe for a substantial Democratic Paper. Get up Clubs in every Township. See the low Club rates, and get your neighbors to join you in a Club. ☞ Club subscriptions payable in advance. Remit by postal order, express or check.

ASK YOUR DRUGGIST FOR

TRADE MARK. DR. HALPRUNER'S U.S. PATENT HEALING SALVE. March 19th, 1878.

Is a POSITIVE CURE for CORNS, BUNIONS, POISON OAK, WOUNDS, SORES, etc. Sold by all druggists. Price 50 cents per box. The Doctor will send to any address, post paid, by Wells, Fargo & Co's Express, one box, on the receipt of 75 cents, money or stamps. Office, St. Ann's Building, opposite the Baldwin, San Francisco. Trial samples free.

SAVED AMPUTATION.—Some time ago we mentioned the fact, as below: "At the time of the wreck of the "Bonanza," John H. Day was employed as a deck hand on board that steamer. He sustained a serious injury to his right hand, necessitating amputation. The danger was considered imminent, as the limb began to mortify, and he was advised to act immediately, or lose it. He was counseled by friends to essay a trial of Dr. Halpruner's Patent Salve. The first application produced favorable symptoms, eased the pain, reduced the inflammation, which was intense, and soon caused a perceptible change for the better. He continued the application until he has entirely recovered the use of the limb. Such cases are most convincing testimony of the value of this remedy, and will be the occasion of bringing it into general use in serious as well as slight injuries. Day called at this office yesterday and showed the injured hand, which is devoid of a scratch. He can use the hand as freely as ever."—*The Daily Oregonian.*

PORTLAND, Saturday morning, January 13, 1877.

Dr. Halpruner guarantees to effect a permanent cure of all complaints of the Feet without pain, or causing lameness. Positively no Acids or Poisonous Medicines used. Examinations Free, Terms Moderate.

WORLD'S FAIR, AND PEERLESS,

BRIGHT CUT CAVENDISH.

—o—

We take this method to call the attention of consumers of the **weed** and **Trade** generally, to our **old Standard Brands of PLUG TOBACCO,** so long and favorably known in the East, where their popularity is unrivalled, **far surpassing all other brands in volume of sales and consumption.**

None but the **choicest** selected **sun-cured** High-flavored Leaf is used in the manufacture of these goods, and we guarantee them **pure** and **free** from all **adulterations** or inferior substances, such as Molasses, Syrups, Grape Sugar, Gelatine, &c.

Our Sweetening is Pure Mass Licorice, and to insure it, we manufacture it in our own factory, direct from the Root, of which we import **millions of pounds** annually, we being the **only Tobacco Manufacturers** in this country who do so.

By this means we avoid all irritation to the Throat or Lungs, which inferior or **adulterated** Plug is apt to engender.

Ask your **Tobacconist** or **Grocer** to obtain it for you, as the satisfaction it will give will reward you for any trouble incurred.

A FIRST CLASS LODGING HOTEL.

CONTAINS 116 ROOMS.

No. 715 HOWARD ST.,

Near Third Street, San Francisco.

This House is especially designed as a comfortable home for gentlemen and ladies visiting the city from the interior. No dark rooms. Gas and running water in each room. The floors are covered with body Brussels Carpet, and all of the furniture is made of solid black walnut. Each bed has a spring mattress, with an additional hair top mattress, making them the most luxurious and healthy beds in the world. Ladies wishing to cook for themselves or families, are allowed the free use of a large, public kitchen and dining room, with dishes. Servants wash the dishes, and keep up a constant fire from 6 A. M. to 7 P. M. Hot and cold baths, a large parlor and reading room, containing a Grand Piano—all free to guests. Price of single rooms per night, 50 cents; per week, from $2 50 upwards.

AVERILL MIXED PAINT

Is prepared in liquid form, READY FOR USE, requiring no further addition of Oil or Spirits. It is of PURE WHITE, and of any Shade or Color. It is composed of the best materials known to the Trade—PURE LINSEED OIL, STRICTLY PURE WHITE LEAD, PURE ZINC, and the purest Coloring Matter procurable for Tinting, which, by our peculiar process of manufacture, are so thoroughly united that they cannot separate. Hence, it will never Chalk, Crack or Peel off; does not run from seams or nail-holes; and for

Brilliancy of Color and Beauty of Finish, it is without a Rival.

☞ Put up in ¼, ½, 1 and 5-Gallon Packages, and in Barrels. ☜
